

Sri Jagadgururambhadracharya is a level of consciousness
which every other consciousness aspires to be identified
In other words, it is the Supreme consciousness, which man
can achieve by his faith, knowledge, devotion and surrender.
We are all happy and grateful that a movement has
taken admirably a shape that may cover the world
by its force.

Congratulations to officers and leaders of this
movement and aspiration.

May the Supreme shower his blessings on
the efforts of the members of this institution.

With love
